

### TE Connectivity DEUTSCH DT connectors at Börsig from stock

*DEUTSCH connector of the DT Series from TE Connectivity*

*(Image: © Börsig GmbH Electronic-Distributor)*

With the DEUTSCH DT Series TE Connectivity offers connectors for harsh environments. The connectors are designed specifically for cable to cable applications.

From now on the electronic distributor Börsig offers the established DEUTSCH connectors of the DT Series from stock. Börsig breaks packaging units and delivers the DT connectors extremely fast and without a minimum order value.

#### **DT products in stock at Börsig**

The stocked products are the 2 to 6 positions plug and receptacle housings and the mating contacts and wedgelocks. These connection solutions are complemented by appropriate keying plug and sealing plugs.

For the processing of contacts there are corresponding crimp hand tools, a Go/No-Go Gauge, as well as the according extraction tool available.

## Features of the DT Series

The thermoplastic housings of the DT Series offer a wide operating temperature range. Silicone seals provide a waterproof wire termination and connection. The field-proven connectors are reliable and rugged. Thus, the DEUTSCH DT Series is ideal for use in harsh environments.

## Technical Specifications

- Operating current: 13 A
- Temperature range: -55 °C to +125 °C
- Degree of protection: IP67

## Typical Applications

- Agricultural vehicles
- Special vehicles
- Garden equipment
- Cleaning machines
- Washer systems
- Automotive
- Mining industry

## About Börsig

Foundation of Börsig GmbH: 1969

Managing Director and proprietor: Stefan Börsig

Business segment: Electronic Distribution with main focus on connectors

Foundation of the cable assembly: 1992

Foundation of the Börsig Austria GmbH in Vienna: 2014

Employees (cable assembly incl.): 170 (State 09/2015)

Turnover: 35,7 million € (2012) | 35,9 million € (2013) | 41,2 million € (2014)
